LIVE PROJECT

Icon Technical Institute – technical institute

SKILLS

- Html
- CSS
- Javascript
- Bootstrap
- React js

- SQL
- MYSQL
- GIT
- shopify
- Figma

- PHP
- jquerry

QUALITIES

- Proficient in HTML, CSS, and JavaScript
- Knowledge of front-end frameworks like React or Angular
- Basic understanding of database management systems like MySQL or MongoDB
- Experience with version control systems like Git
- Ability to work with responsive design principles and mobile-first development
- Strong problem-solving and analytical skills
- Attention to detail and a commitment to writing clean code
- Effective communication and teamwork abilities

INTERNSHIP

front-end developer

- Assisted in the development and maintenance of the company's website using HTML, CSS, and JavaScript.
- Collaborated with the development team to implement new features and functionality, ensuring adherence to design guidelines and best practices.
- Conducted testing and debugging to identify and resolve issues, ensuring smooth functionality and optimal user experience.

PROFILE

As a passionate and ambitious web developer, I am eager to kickstart my career in the dynamic field of web development. With a solid foundation in HTML, CSS, and JavaScript, I am equipped with the technical skills and a strong desire to learn and grow. I am dedicated to creating visually appealing and functional websites that deliver exceptional user experiences. With a collaborative mindset and a proactive approach, I am ready to contribute to innovative web development projects and expand my skill set.

EDUCATION

BACHELOR OF COMMERCE
DDU UNIVERSITY , GORAKHPUR

As a BCom graduate who transitioned into web development, I bring a unique blend of business acumen and technical expertise to the field. With a solid foundation in finance and commerce, I possess a strong analytical mindset and a keen eye for detail. My passion for coding and web development led me to acquire proficiency in HTML, CSS, JavaScript, and various frameworks. I excel at translating business requirements into intuitive and user-friendly web experiences. With my strong problem-solving skills, collaborative nature, and a constant drive to learn, I am well-positioned to contribute to the ever-evolving world of web development.

COURSE

FULL STACK WEB DEVELOPMENT

As a BCom graduate, I made a deliberate decision to pivot my career path and explore the exciting world of web development. Recognizing the growing demand for digital expertise, I proactively pursued an extra course in web development during my college years to acquire the necessary skills for this transition.

- Learn the fundamental structure and syntax of HTML, including tags, elements, and attributes used to create the content and structure of web pages.
- Understand how to use CSS to style and format web pages, including techniques for layout, typography, colors, and responsive design.
- Explore the basics of JavaScript programming language, including variables, data types, control structures, functions, and object-oriented programming concepts.
- Get hands-on experience with popular front-end frameworks like React which provide tools and libraries for building responsive, efficient, and interactive user interfaces.
- Gain an understanding of database concepts, including relational databases (e.g., MySQL, PostgreSQL) or NoSQL databases (e.g., MongoDB), and learn how to design and interact with databases using SQL or other query languages.
